

splash ×  Marketo

Impact beyond the event.

The Splash and Marketo integration provides
businesses with the tools to:

Accelerate event performance. With the seamless, bi-directional sync between Marketo and Splash, your organization is enabled to make better event decisions.

Save time and resources. With the ability to automate workflows and Splash's easy-to-use, flexible event templates, your team can spend more time optimizing the guest experience.

Elevate the on-site experience. With Splash's Host App, you can automatically sync check-in data, print badges, and send notifications to your on-site team.

Scale events faster. With event management processes built to scale across teams, departments, and regions, your team is empowered to throw more and better events.

Ready to scale your events program with confidence?
