CONNECT TO MARKETO FROM ANY SOFTWARE

Marketo connector lets you fast and easily connect to Marketo from *any software*. Eliminate manual data entering and automate the processes by integrating Marketo with any of your business system. You can connect any CRM, ERP, CMS, DMS, Apps and email. The integration of more than two systems is supported. The synchronization is *live and bi-directional*.

With Connect Bridge you can visualize the entire data model of Marketo, allowing you to adapt the Marketo integration to your company's individual needs.

- **Automize the processes**
- **Personalize the communication with your customer**
- **Turn more leads into sales**
- **Estimate ROI for each marketing activity**

Marketo connector lets you integrate:

- | | |
|--------------------------------|-------------|
| ✓ Leads | ✓ Companies |
| ✓ Activities | ✓ Folders |
| ✓ Campaigns | ✓ Emails |
| ✓ Lists | ✓ Snippets |
| ✓ Opportunities and all others | ✓ Files |
