

Instruction Manual for Integrating bodais for Marketo with Marketo

Overview

In order to integrate bodais for Marketo with Marketo, you will need to take note of these 4 values from Marketo, and input them in Setting menu of bodais for Marketo.

1. Client ID
See Further Detail on page 3.
2. Client Secret
See Further Detail on page 3.
3. Endpoint
See Further Detail on page 4.
4. identity
See Further Detail on page 4.

Marketo Configuration Steps

1. Client ID and Client Secret

The **Client ID** and **Client Secret** are found in the Admin > LaunchPoint menu by selecting the custom service, and clicking View Details.

Take note of these values.

bodais for Marketo Configuration Steps

1. Log in to Bodais for Marketo, and click on “Setting” button.

2. In the Setting menu, type in “Client ID”, “Client Secret”, “Endpoint” and “identity”.
3. Choose the day of the week you wish analysis to be performed.

A screenshot of the 'Settings' configuration page. The page title is 'Settings'. Below the title, there's a grey bar with the text 'Please start the analysis by specifying the ID'. The form contains several input fields: 'client_id', 'client_secret', 'Endpoint', and 'identity'. Below these fields is a dropdown menu labeled 'Select analyse day of the week' with 'MON' selected. At the bottom, there are two buttons: 'Settings' and 'analysisStart'. A small note at the bottom reads '*The next analysis date is to be specified days of the week or the beginning of the month.' with a question mark icon.

bodais for Marketo Configuration Steps

4. Click on “Settings” to save your configuration. The first analysis will be performed on the day you specified in step 3.
5. Clicking on “anaysisStart” button will start immediate analysis.
